EYA HARZALLAH

Computer Science Student — Faculty of Sciences, Monastir

Tunisia | eyaharzallah35@gmail.com | github.com/devi-w-eya | linkedin.com/in/eya-harzallah | Portfolio

SUMMARY

Computer Science student focused on building real systems through hands-on development. Interested in backend engineering, cybersecurity fundamentals, and applied AI — particularly computer vision in healthcare. Open to internship opportunities in 2026.

EDUCATION

Faculty of Sciences, Monastir — 2024 – Present
Bachelor of Science in Computer Science — *Monastir, Tunisia*

Hedi Khefacha High School — 2020 – 2024
Baccalaureate in Science — *Tunisia*

PROJECTS

Booklet - Online Bookshop — 2025
Personal Project | github.com/devi-w-eya/booklet

- Built a web-based book browsing and listing interface from scratch.
- Implemented responsive UI with vanilla HTML, CSS, and JavaScript.

NutriScanner *(In Progress)* — March – Present
Personal Project

- Designing a REST API backend for nutritional data scanning using Spring Boot and Java.
- Frontend interface currently in development.

Java Shop System *(In Progress)* — April – Present
Personal Project

- Backend architecture project focused on object-oriented design patterns with Java and Spring Boot.

SKILLS

Languages	Java, Python, JavaScript, HTML/CSS, C
Frameworks	Spring Boot
Tools	Git, GitHub, Linux, VS Code
Spoken	Arabic (Native), French (Fluent), English (Fluent), Spanish (Basic)

CERTIFICATIONS

- Introduction to Python — DataCamp
- Linux Unhatched — Cisco Networking Academy
- Linux Essentials — Cisco Networking Academy *(In Progress)*
- Student Entrepreneur Program — PEEMO
- WEHACK 0.0 Hackathon — Participant
- AI Workshop — Participant

ACHIEVEMENTS

- **WEHACK 0.0 Hackathon** — Competed in a tech hackathon building innovative solutions under time pressure; gained hands-on experience in rapid prototyping and team collaboration.

- **Student Entrepreneur – PEEMO** — Selected for an entrepreneurship program covering ideation, lean startup methodology, and business pitching for university students.
- **AI Workshop Participant** — Attended a practical AI workshop exploring real-world applications of machine learning and computer vision.
- **Learning** — Completed multiple certifications in Python independently and Linux alongside academic studies, demonstrating initiative and continuous growth.

INTERESTS

Cybersecurity — Exploring network security, ethical hacking fundamentals, and Linux-based security tools. **AI & Computer Vision** — Interested in applying deep learning to healthcare imaging problems. **Painting** — Traditional and digital art as a creative outlet. **Piano** — Self-taught, hobby musician.
